## History

The Institute of Oncology of Vojvodina was founded in 1965 with financial backing from the Republic Health Insurance Fund (NHIF) as part of a project of the Serbian government.

In 1966 the Oncology Institute oversaw the foundation of the Vojvodina cancer registry which collects epidemiological data on tumour types and incidence rates for a population area of over 2 million. The institute also presides over the publication of the only specialised oncology journal in Serbia and provides medical, research and educational facilities for oncology in the province. Oncology Institute is located on a hill "Tatarsko hill" in the center of Sremska Kamenica. Sremska Kamenica lies on the right bank of the Danube and is practically part of Novi Sad, which lies on the left bank of the Danube. Novi Sad is the capital of the Autonomous Province of Vojvodina which is located in the north of the Republic of Serbia.

## General information

The IOV in Sremska Kamenica is a highly specialized educational and scientific research institution in the field of oncology, which carries out the most complex specialized, preventive, diagnostic, therapeutic and rehabilitative methods and procedures. The Institute monitors and examines the health status of the population, conducting the registration of patients with cancer and performs other tested, introduced and applied new methods of prevention, diagnosis of tumors, their treatment and rehabilitation, organizing expert supervision of the IOV wards and dispensaries in the territory of Vojvodina.

The Institute consists of the following major organizational units:

- Clinic of Internal Oncology
